

Project Task Folder

This folder turns the four-member project plan into actionable, small tasks. Names and dates are placeholders; enter the real team names and actual completion status.

PDF copies ready to share

- `WORKFLOW.pdf` — task order, dependencies and shared completion checks.
- `GITHUB_WORKFLOW.pdf` — branch, commit, push, PR, review and merge steps.
- `MEMBER_1_BACKEND.pdf` — Flask/backend tasks.
- `MEMBER_2_UI_UX.pdf` — six HTML/Jinja and CSS code chunks with exact files, snippets, checks, commits and pushes.
- `MEMBER_3_TESTING.pdf` — quality-check tasks.
- `MEMBER_4_DEMO_DOCS.pdf` — seed data, setup documentation and demo tasks.
- `TESTING_AND_DEMO_SEQUENCE.pdf` — shared acceptance flow and speaking roles.
- `README.pdf` — this task-folder index.

The matching `.md` files are kept as editable source versions. Use the companion `docs/FOUR_MEMBER_CONTRIBUTION_WORKFLOW.md` for the shareable contribution overview. Mark tasks complete only after doing them. GitHub commit/PR evidence must come from the team's real accounts and activity.
